

# Bona Dual Edge

## Technical data sheet

Innovative dual-head design allows easy steering with light hand pressure, delivering a unique sanding experience with less fatigue. Counter-rotating dual heads feather out cut marks, saving operating time and delivering an optimal sanding surface.

- Dual 4" counter-rotating sanding discs reduce edging marks
- Single rear omnicaster provides precision steering and control
- Low profile, extended nose for access to hard to reach areas
- Built-in LED lighting

### Technical data

- Motor – (single Phase) 60Hz, 115 Volt
- Machine weight – 26.5 lbs.
- Sanding disc size – 4"
- Sanding disc speed – 4,800 rpm
- LED illumination
- DCS compatible
